

Transforming Healthcare Operations: A Real-time Eligibility Check Solution

Artha Solutions partnered with a leading healthcare vendor to streamline real-time member eligibility verification. The real-time member eligibility check solution by Artha Solutions has transformed the payer-provider interaction by enhancing efficiency, reducing fraud, and improving overall operational workflows. This ensured timely and accurate eligibility checks, leading to better financial outcomes and improved patient care experiences.

Outcomes

99.5%

Achieved a 99.5% success rate in real-time eligibility verification, significantly reducing errors & inaccuracies.

75%

Reduced eligibility check processing time by 75%, enabling instant validation for providers and insurers.

60%

Automated 60% of manual eligibility verification workflows, minimizing dependency on paper-based processes.

80%

Improved provider satisfaction by 80%, ensuring seamless access to real-time eligibility data.

Challenges

Manual Verification Delays

Traditional eligibility checks required manual intervention, leading to inefficiencies and potential inaccuracies.

Fragmented Communication Channels

Providers faced difficulty accessing real-time eligibility status due to disparate systems.

High Risk of Fraudulent Claims

Lack of real-time data verification led to misrepresentation and fraud risks.

Scalability Limitations

Legacy systems struggled to handle large-scale eligibility requests efficiently.

Solutions Provided

Automation and Centralization of Eligibility Verification

Developed a two-step automated EDI 270/271 process to provide instant member eligibility status, reducing reliance on manual phone calls and delayed responses.

Fraud Prevention and Risk Mitigation

Enabled real-time verification to identify discrepancies instantly, reducing fraudulent claims and enhancing financial integrity.

Data Accuracy and Processing Speed Improvement

Streamlined eligibility requests across multiple payers, ensuring consistent, up-to-date, and accurate eligibility information for providers.

Enhanced Provider and Patient Experience

Facilitated a seamless, one-stop portal for eligibility verification, minimizing administrative burdens and improving patient service delivery.
